

Physical Exam/		Disorder & Complication/ Intervention-Procedure		Pregnancy	
General Physical Exam: Head;		General		1. AI ; IUI	artificial insemination, intrauterine insemination
1. CNS	central nervous system	1. c/o	complaint of	2. AB	abortion
2. EENT	eye, ear, nose, throat	2. SS, S/S, S&S, Sx	signs and symptoms	3. EDC, EDB, EDD	estimated date of conception, estimated date of birth, estimated date of delivery
3. ENT	ear, nose, throat	3. Tx	treatment	4. FHR or FHT	fetal heart rate/fetal heart tones
4. HEENT	head, ears, eyes, nose & throat	Neuromuscular		5. G/P/T/p/A/L (note L=LC)	gravida/para/term/preterm/abortion/live children
5. PERLA	pupils equal and reactive to light and accomodation	4. CP	cerebral palsy	6. G/P/A/L (note L=LC)	Gravida/para/abortion/live children
		5. Sz	seizure	7. IUFD	intrauterine fetal demise
Vitals		Cardiovascular/ Pulmonary		8. IUGR	intrauterine growth restriction
6. BP, B/P	blood pressure	6. DIC	disseminated intravascular coagulation	9. LMP, LNMP	last menstrual period & last normal menstrual period
7. P (heart rate)	pulse	7. HTN/HT	hypertension	10. pg	pregnancy
8. R, r, resp	respirations	8. PIH	Pulmonary induced hypertension	11. SAB	spontaneous abortion
9. RRR	regular rate & rhythm	9. SOB	shortness of breath	12. TAB; TOP	therapeutic abortion; termination of pregnancy
10. T, temp.	teperature	10. URI	upper respiratory infection	13. VBAC	vaginal birth after cesarean
11. VS, V/S, vs	vital signs			Fetal Position	
12. VSS	vital signs stable			14. ROP	right occiput posterior
13. wt	weight			15. ROT	right occiput posterior
Gastrointestinal, Digestive		Gastrointestinal		16. ROA	right occiput anterior
14. BM	bowel movement	11. N and V, N & V, N/V, N+V	nausea and vomitting	17. OA	occiput anterior
15. GB	gallballder	Genitourinary		18. LOA	left occiput anterior
16. GI	gastrointestinal	12. cath	catheter	19. LOT	left occiput transverse
17. I and O, I&O	intake and output	13. UTI	urinary tract infection	20. LOP	left occiput posterior
Genitourinary		Endocrine		21. OP	occiput posterior
18. GU	gastric ulcer	14. DM	diabetes mellitus		
19. DRE	Digital rectal exam	15. GDM	gestational diabetes mellitus		

20. U/O	urine output				
OB & GYN, (Ob, gyn and related structures)					
21. BSE	bovine spongeform encephalopathy : breast self exam	16. C/S	cesarean section		
22. Cx	contraction	17. D and C, D & C	dialation and curettage		
23. NSSC	Normal size, shape, and consistency	18. HELLP syndrome	A combination of hemolysis, elevated liver enzymes and low platelet count		
24. VE	vaginal exam	19. PID	Pelvic imflammatory disease		
		20. PUPPP	piuritic urticarial papules & plaques of pregnancy		
		21. TAH	total abdominal hysterectomy
